Stocks/ Investments

The President is passing tariffs on other countries which is driving the stock market down.

What does this mean?

It means stocks will be on sale for a while- but when he lifts the tariffs, they will shoot up sky high – so buy low and sell high.

The stock market is on a down turn. So that means stocks are on sale. So be careful in the market when you buy. I would suggest get in and out of stocks because of volatility.

If you want an easy sock to buy, get FAGIX with Fidelity account.

The stocks I buy are around a \$1 because the stock exchange have a rule if you don't get to \$1 in 6 months to 1yr they kick you out.

So, if you buy a stock under \$1 you have a good chance it will go up.
