News /Notes

The government and corporate American is in layoff mode so please save money \$3000-10,000 or pay down debt . If you get laid off you have some money to pay bills and not live off credit cards. Also step up your side hustle game so if you take a pay cut you still have part time income coming in to help with bills.

IRS is back in collection and sending letters – They have paused for 3 years because of COVID so now they are trying to get paid.

I was on IRS webinar this week –

They said No more liens on credit reports

Harder to settle Tax Debts -OIC

Starting new Auto Enforcement on tax filing and Debts

They send you to collections-like a credit card or bad loan

Stocks/ Investments

The President is passing tariffs on other countries which is driving the stock market down.

What does this mean?

*It means stocks will **be on sale for a while**- but when he lifts the tariffs, they will shoot up sky high – **so buy low and sell high.***

The stock market is on a down turn. So that means stocks are on sale. So be careful in the market when you buy. I would suggest get in and out of stocks because of volatility.

*If you want an easy sock to buy, **get FAGIX with Fidelity account.***

The stocks I buy are around a \$1 because the stock exchange have a rule if you don't get to \$1 in 6 months to 1yr they kick you out.

So, if you buy a stock under \$1 you have a good chance it will go up.

The stocks I have bought and are watching are:

Debt Elimination is the best ROR because if you paid off Credit Card Debt and Loan Debt at 10-30 %
You save 10-30% it is Guaranteed ROR. So, paying down debt is the best investment right now because the market is so weird.
